

OREGON CITY HISTORIC RESOURCE SURVEY FORM

Street Address: 806-808 MONROE ST		City: OREGON CITY	
USGS Quad Name: Oregon City		GPS Latitude: 45 21 20 N	Longitude: 122 36 01 W
Township: 02S	Range: 02E	Section: 31 Block: 141	Lot: 6 Map #: 22E31AD Tax Lot #: 900
Date of Construction: c. 1955	Historic Name:		Historic Use or Function: Domestic - duplex
Grouping or Cluster Name: NA	*Current Name or Use: Domestic - duplex		Associated Archaeological Site: Unknown
Architectural Classification(s): Minimal Tract		Plan Type/Shape: Rectangle	Number of Stories: 1.0
Foundation Material: Concrete		Structural Framing: Unknown	Moved? No
Roof Type/Material: Gable / Composition shingle		Window Type/Material: 1/1 wood double-hung	
Exterior Surface Materials Primary: Asbestos shingle		Secondary:	Decorative:
Exterior Alterations or Additions/Approximate Date: Railing replacement			
Number and Type of Associated Resources: None			
Integrity: Good Condition: Good		Local Ranking:	National Register Listed? No
Potentially Eligible: <input type="checkbox"/> Individually or <input type="checkbox"/> As a contributing resource in a district Not Eligible: <input checked="" type="checkbox"/> Intact but lacks distinction <input type="checkbox"/> Altered (choose one): <input type="checkbox"/> Reversible/Potentially eligible individually or in district <input type="checkbox"/> Reversible/Ineligible as it lacks distinction <input type="checkbox"/> Irretrievable loss of integrity <input type="checkbox"/> Not 50 years old			
Description of Physical and Landscape Features:			
Located behind #810 Monroe, this side gabled duplex sits on a poured concrete foundation. The two sides are a mirror image of each other. Each has a large picture window and a door with concrete steps running parallel to the house. There is a 1/1 double-hung window between the door and the side of the house. The north entrance steps have a metal hand rail and the south entrance has a wood handrail. The north and south elevations have a small shed roof hood over the door. The roof eave extends over the doors in the center of the structure but cuts back over the window. The asbestos ceramic shingle siding is probably original.			
Statement of Significance:
