

## Addendum15: Exterior Repair

### Type I Minor Site Plan & Design Review

*This application may be used for exterior repairs to any building that is not on a residential single family or duplex property. This includes repair or replacement of siding, doors, windows, entry stairs, or other building elements, where the replacement parts are like-for-like and the final appearance is unchanged.*

Questions	Check if YES	Check if NO	Staff Confirmation
Will the repair result in any expanded building footprint?			
Will the repair utilize materials that are different from the existing building materials? (Example: porch railing replacement parts will be metal rather than wood). <u>If yes</u> , explain the differences in the description section below.			
Will the repair use like for like parts and designs so that the final result looks the same? <u>If no</u> , explain any differences in the description section below.			

Describe proposed repair work in detail and attach photos of the project area: \_\_\_\_\_
