Description of Physical and Landscape Features:			
This house sits under a front gable roof with a rectangular gabled bay on the southeast corner of the house. A shed dormer is present on the east side of the main gable, near an interior brick chimney. The gables feature boxed eaves and decorative rake molding, while the house is clad with wide wood shingles that have replaced the original siding. The windows are primarily 1/1 double-hung wood sash, but two fixed windows have been added at the first floor level on the south side. The windows typically feature wide trim with decorative edge molding and narrow slightly extended sills.
